once completed

	EA	DCAS update: swap of analyst on site; Chris supporting site for 3 days. Will use next couple days to reconfigure analytical support. Update to come once per day instead of twice. Anticipating increase in activity across the board, will have resources to support at that point.
	TD	How tied to other agencies?
	EA	Looking at PSIO for intel center. Leveraged contacts within province.
	KK	AE resulted in major case management assistance on investigation side, still need case management of evidence side. Looking for update. EM to provide.
1332		Meeting end; tact meeting at 1400hrs, next full brief at 1700hrs.
	PT-SH	Request to get SH vehicles out to Carway to block Carway from vehicles going through. Smaller vehicles we have no authority to stop, biggest concern is we don't want commercial vehicles going through. Can move the small ones but don't want commercial.
	SH-PT	Have more resources than needed at CP10. Provided we're still over resourced here, we can move to Carway to set up checkpoint to divert commercial traffic.
	PT	Reestablish CPs and check whats happening in Carway vehicle report. Del Bonita not as much of a concern. Prioritize Carway if we are short resources. May be prelude to another blockage.
1400		Tactical update: KK, TD CZ, PT, EM, IS
		Update provided to TD on Carway.
	KK	2 SHs headed this way now.
	TD	Same group as was there last week when it was blocked. Group was respectful. Blood Tribe going to support as well.
	PT	CVEs/farm vehicles checkpoints coming through before they end up at boarder if they don't have legitimate business. Assign CVE Enforcement- power over CVEs.
	TD	Leave this with SAD Silver command. Good to reestablish CPs with CVE Enforcement.
	KK	Site update: AE brief - plain clothes members attended Personal strategized CCMG to make contact. Received well. Members attended and explained reason of tractors. Asked to speak to the person in charge. CW told everyone they don't need to speak to police- big show, but this is good. Clear decenstion in rank within group, maybe even conflict but no conflict with police. Pressure within group but not with police. Gives indication of mood. Members passed out business cards but people said they would not talk. Made obvious we were conducting investigation near tractors by taking photos, etc. Seem to be getting more comfortable with police presence. Tasked to AE to see if we need any other type of discussions on unlawfulness from investigation perspective on site.
	TD	CIDA relies on vehicle being in place for prolonged time. These vehicles have been there for a long time and the longer it goes on our case gets stronger. Where grounds exist, this is what we're doing. Vehicles stuck at CP10, provides stronger message.
	KK	Have not done any arrests at CP10, posed question to AE to get investigative team thinking to make sure it's covered off.

J.G. Ferguson, A/Commr

Incident Commander's Notes

8	TD	Have to be satisfied that even though there is no blockade they are still slowing down vehicles. CP10 vehicles subject to the same because it's still close to boarder.
	PT	Only serious charges for about 20 people. Challenges at briefing establishing identities at main site. CP10 is way more dynamic. Public confidence standpoint - focus is CP10. Want to hold these people accountable for all CIDA and mischief, etc. at main site, unless someone egregious. Just need LPs, charge ROs and ticket, have to be thoughtful about where these 20 people should be. Think it should be main site.
	KK	Proximity to boarder - need to lock this down. AE will follow up to see if CCMG can communicate from continuing offense perspective.
	TD	34 vehicles subject to CIDA, criminal code, etc., how we decide to go about it is the question. CW needs to be advising them of jeopardy. Instigative focus has to be here. Once satisfied at main site, move to CP10.
	KK	Want AE to engage with CCMG to continually remind people at site that they are committing a crime so theres no misunderstanding. No immunity given by not arresting (to get rid of any arugments).
	EM	Dedicated specific person needs to document that they are giving these reminders.
8	KK	CSET found a couple spots to north, not best location. Want to be south of CP10, opens up 501 and easier to move them. 4 miles north of weigh scales on east of road in Hudderite communities. Will bring back if it looks good-checking out now. Good sense from group that they will move because it is closer. Put in a new roadblock that funnels people down into this area, with assistance of key leaders. Everyone will want public safety. Allows us to limit resources for containment. Many strategic advantages. Colony called "Miami Huderite Colony". Once drop barricade, think they will want to move and they will be closer to boarder. Might take .5- full day to make this happen.
	TD	Closed roads due to dust storms on Highway 3, RR 185-190.
	KK	Blood Tribe and resources - should we make ask from municipal agencies to give relief? Become part of a more collective response. May be advantage to inviting other partners. CZ to discuss on meeting with AACCP this afternoon.
	JF	Good to get other agencies involved if they are willing.
	TD	Federal force is to our advantage.
	PT	Be mindful these protests are happening everywhere, recognize we can pull resources from munis but they're first priority is still to response to their respective units. May get pulled back and may have reliability issue. Update on new protest site: Colony south of 501 and north of Coutts.
	KK	Would like to draw GC into discussion if going this way. KK to send PT location.
	KC	Blood Tribe heading down to Del Bonita, SHs headed down to CP10.
	KK	SHs on their way. Meeting at Personal - people wanted permission to have support vehicles (PVs) come in - denied by KK. Might end up with blockade due to this.
8	TD	Tractor and truck stolen from Bashaw, worried about stolen vehicles. Ownership doesn't apply as much then. If we start seeing things like that happening; heads up for that.
	KK	Have video of someone being tied to tractor, drove it around and came back to same spot.

Incident Commander's Notes

K Division – Emergency Response Team

Protected B

8	EM	Worth engaging civil lit? Any liability on land by arranging it?
8	KK-EM	Please task out; want civil/liability insurance. Not expensive but would be good to cover this off
	PT	Might be worth to accept this liability due to high risk where it is right now.
	KK	May not eliminate the risk of blockades and people on the highway but will mitigate it. Sunny Site Huderite Colony - updated name of potential protest site.
1444		Next briefing at 1700hrs, 1830hrs to follow. Meeting end.
1446	PT-ED	Tasked to get CPs reestablished at Del Bonita and Carway and have CVE Enforcement at these points.
	JF	Would have to control traffic in one lane.
1500	KK-JF	(Phone call): Boarder Patrol indicated report of northbound lanes in Carway blocked.
		Both boarders only open until 2200hrs, then moving patrol until then. Mass arrest resources in place; proposing staggered approach.
	SH	2 vans with 8 person capacity in Lethbridge within an hour. Vehicles in Medicine Hat and Calgary. If need this, 60 person capacity will show up on the hour, staggered approach. Can bring up further backup if needed. EM to connect with KK on this.
8	TD-JF	(Phone call): 4 mins ago. Message at Carway- northbound lane open, southbound lane closed with tractors on lane. Members on scene feel it will open up in next few minutes on Highway 2. Authority to do vehicle check on Highway 62 and Highway 501 to check all commercial and farm vehicles. Second one at TSRD 23. Acting under existing lawful authorities for commercial and farm vehicle stops.
1512	PT-SH	Based on totality of what we have in province, if they have no business lawfully going to port or field, lawful authority is based on stated intentions of blockade. Holding people at CP10, but we can't stop personal vehicles because theres no way to prove their intention. Threat assessment based on exisiting blockade and nature of protest.
1658	PT-ED	Asked Naomi what we use for 48hr clear admin leave stand down when returning home. Will get message out for consistency of all member stand down.
1700		Full breifing begin **NOTES TAKEN BY CLAIRE SPINK**
	PT	JF confirmed update from CBSA that Carway convey has left.
	NS	Media lines going to Gold for review. Will include TD JF and PT.
1724		Meeting end.
1725		Tactical discussion begin KK, PT, EM, JF, TD, IS
8	PT	Helpful to issue TSA tickets on main site to people to for interactions. Reinforces message and low drama. CIDA people - could serve summons. Starts process and sends message.
	JF	Dealing with different crowd than CPS who was handing out tickets. CIDA and criminal code charges, might create environment of "what do we have to lose".

J.G. Ferguson, A/Commr.

Incident Commander's Notes

K Division – Emergency Response Team

once completed

8	IS	6 point stunting ticket; does damage to insurance
8	TD	RO tickets to go in mail but members on site have announced it. Traffic to assist with what we can charge with when parked on side of highway.
	KK	Separate site from CP10. Like strategy for CP10, move site and set up new blockade and ask Person to move them down there. Once moved, we can ticket anyone who is left because we have given them alternative site to protest. On site, dont think tickets will be effective, they're aware of this already.
	PT	Drives home message in tangible way that this is unlawful. Gives TD something to talk about at town hall.
	KK	Don't get feeling that tickets will cause them to block the road. Will start with CP10 but might be controversy if we aren't ticketing site people.
	JF	If we give them ticket, might not be able to follow up on criminal charges. Would like to proceed with criminal charges with core group.
	KK	Could do up summons with investigative team tomorrow with no issues. Still have protest on and GOA not saying anything. May have hope right now they're not facing criminal charges, but if give summons it bring them to block the road.
	JF	Pop up protests along week and have resolved them quickly without tickets.
1735	KK	Traffic still flowing, time on our side. Will deal with site once CP10 is dealt with. Measured strategies and arrest key players may be an option. Will have more intel in time.
8	TD	Everyone who comes up to CP10 gets a ticket?
8	KK	Strategy if we don't get alternate site. Might block the road but not sure how feasible it is if people fight it in court. Work towards getting new site set up to midigate risk.
	TD	Get message out now and work with courts to explain. They may drop a lot of charges but would discourage people come coming.
	KK	If it looks like alternate site by Weds/Thurs, look to moving and ticket those who want to stay behind and anyone new who comes. Multiple strategies: incentives to protest lawfully. If that doesn't work, Fri/Sat night we warn people they will get ticket - too unsafe. Get media involved this way. Look to solving site after, may change direction if they block site again. No threats in a while. Will know around Tuesday 0900hrs about alternate site.
	PT	Problem right now is that we're not doing any action.
	KK	Investigative techniques - hold in back pocket for tickets for site.
1752	JF	On board for strategy at CP10.
	KK	Still letting traffic go through on site, remain as in until they force our hand. Look into how Kenney's announcement will affect options for us.
1744		Meeting end.
8 1803	PT	Follow on conversation with KK, JF and TD (Phone call): circled back to ticketing people on site, accepted that it doesn't make sense to pursue CIDA, as we are not ready investigationaly. Talked about TSA tickets, raised fact that discussion had Ottawa and Calgary issued tickets in relation, which didn't seem to present as a potential flash point issue. In order to organizationally take action, this is something we should be considering. KK to talk to investigators and CCMG and we will discuss results in morning.

J.G. Ferguson, A/Commr.

Incident Commander's Notes

Do not disseminate without approval of Incident Commander.

Caption (e.g. assisted unit, location, file number) (this field expands) Alberta COVID-19 Protests

Time	Action	Details (this field expands)
0852	JF-AH	A couple of vehicles and tractors crashed the barricade last night. KK and team put together options with pros/cons. Anything we do might create a reaction, may be a flash point for things all over province. Good dialogue and lane open. Focus today is to try and find a location for them to protest legally. Frustrations starting to set in on site.
	AH-JF	Members been struggling to have access to good food. A few logistical struggles, food is a number one priority.
0900		Briefing begin: JF, KK, CZ, TD, BB, SJ, MD, NS, SK
	KK	Nothing to report overnight, continued CCMG contact through the day with key leaders. Also at CP10 working through crowd. Continuing talking today with protesters that its pretty dangerous at CP10. Looking to find better location. Introduction with key community partner Personal facilitate meeting on engagement today. Incident happened last night at CP4: 5 tractors showed up with support vehicles that went around check stop. Failed to stop for police. Parked tractors near Saloon and ran inside, a bunch of people came out - could not identify people. Have 1 LP, update to come when we know more. Let fuel go through GD, they do have a lot of fuel now. Gas, propane and diesel around Personal . CP10 rolling along with good rhythm. Southbound lane has 41 PV, 2 tractors, 12 CVE, 21 trailers; Northbound lane has 58 PV, 24 CVE, 18 trailers, took less than a minute to get through. Flowing well. Coutt's Site: Northbound has 18 CVE, southbound 21 CVE, 3 PV and 5 large tractors. CP5 has 22 PV and 4 CVE. Identifying key people for CIDA. Brought in GIS resources. Asked this morning to have a demonstration, continuing to investigate as critical incident, have less tolerance for whats going on. Getting IDs from tractors and taking photos. Members there to see what response will be. Media update: being ready for arrest of AP. RMK working on this. Will take place today or tomorrow morning, timing on when we know there will be movement. RMK working on community side question. CBSA reported volumes are 50%, changing day to day. About 400 commercial vehicles coming through on regular basis. Slowly increasing. CIP update: "E" Div on ground embedded with STO, 6 logistics and 1 evidence gathering team. DCAS update: maybe identified 1 driver from last night, Personal monitoring. Posting on social that it will be a big day today or tomorrow, not sure what he's talking about exactly. CSET with CZA are meeting with Mayor of Coutts and Mayor of Milk River. Objective to move CP10, should have update in 1 hr. Meeting a couple times per day. May have further authorities that might engage further community stakeholders. Key is to get community partners working along side us and have leadership role. Objectives of today: public, police and protester safety, keep traffic CVEs flowing, continue to investigate incidents such as last tonight. Longterm objectives: better solution for CP10 and working with communities, investigation ongoing into critical infrastructure violations, tactical planning meetings brought up to Silver and Gold yesterday. Sitting at 5 tactical options, executing one right

Incident Commander's Notes

		now (status quo option). Planning details further, looking for state of better readiness. Tactical options are for site.
0911	TD	Fuel - strategically, Ottawa has taken position of stopping this. Negotiations with respect to fuel, what were agreements?
	KK	Supported fuel to go in, indicated they would block road again. Other perspectives - if trucks run out of fuel, they will be even harder to move. No negative effects from this yet. RMK working on media lines- different than Ottawa situation.
	JF	We are meeting objective of open road. Created dialogue, being compliant with keeping lane open, if we took hard line on this might cause more problems. Can articulate and justify our actions.
	TD	Value of SOLE might be limited
	Solicitor-Client Priv.	
		<i>gr</i>
	CZ	Spoke with Deputy Minister and JSG today, looking at stronger focus on attempting to get us some tools such as towing. Nova Scotia has designated some roadways. Looking at designation, may be requirement for compliance. Focus on this for the next couple days.
	TD	Community meeting tomorrow?
	KK	Talk that community may have loss of confidence in Mayor of Coutts. Would like TD to attend, but more options - value of us attending. Use speaking lines from Media for this. Have asked CZA when meeting with communities when looking to declare SOLE - look to see how community is viewing situation. Should have input on level of concern.
	TD	Weekend very active in SAD. Event in Cochrane 100 people showed up. remained peaceful. Same time at fire at Ramada, had to evacuate - significant draw on resources. Reality when we are using so many resources on one thing. Intel on convoy later this week with plan to go down to Coutts later on Friday. No sense of ending anytime soon.
	NS	If we do have charges please report. Shows we are taking action publicly.
	MD	SJ and MD headed down to site today.
	KK	Conversation took place earlier today with Bronze and Supt. LAI in MCM disclosure. Arranging for 2 resources to come down to Coutts to assist. Once resources are in place, can report on charges, etc. If AP is arrested - will pass on through RMK.
	SK	Next full briefing at 1300hrs. Next tact briefing at 0945hrs.
0927		Meeting end.
0929	JF-SR	(Phone call): Update to SR. Pushing back a little saying there is not a lot of equipment.
	JF	Haven't heard anything from Military since we made initial ask - don't feel equipment is appropriate.
	SR	Don't want reason to get in middle of it, haven't seen equipment so not sure

Incident Commander's Notes
K Division – Emergency Response Team

Protected B
once completed

		Minister signed off on this. Member RAPID test needs?
	JF	Unsure if this is in plan right now. Will follow up on Rapid tests.
	SR	Spikes in numbers in Ottawa dealing large amount of people.
	JF	Focusing on mood of crowd, don't want to find ourselves in situation where we cannot handle it. Using fuel as part of negotiation strategy and have compliance of open road.
	SR	Continuing to provide updates to Commissioner, doing great work. Continuing to develop plan with GOA. Preparing for longterm.
	PT	Integrating with LPS on our side, working with OPS in National?
	SR	Starting to harden on situation, no longer allowing fuel, etc. Pressure being increased and the larger reaction it will cause. Similar tow truck situation.
	JF	Strategy will be based on federal restrictions/GOA announcement on Tuesday.
	SR	Have not heard anything on restrictions federally.
	JF	Word that truckers may have to get third booster shot in order to travel provincially; will create a huge reaction. Depending on what happens with restrictions may create the future of this situation.
0942		Call end.
0945		Tactical update: CZ, JF, PT, KK, TD, GC, EM
	JF	Update to CZ on possible tactical options from last night at site.
	KK	Summary on 5 options. No seizures of vehicles at this time. Currently with Option 1 of remaining status quo and hold site.
	JF	Can expect flash points with options 3-5, may lose objective of keeping lanes open. Site is stable - maybe look at CP10 and try to deal with this first.
	CZ	Meeting with JSG this morning and talked about enforcement tools such as injunctions and tow truck piece. They are focusing more on tow truck pieces; injunction will not be valuable. Discussion around calls had with Premier this last week, Premier is recognizing where our team is, what could result, what reaction would be to enforcement and could provoke across country. Overt enforcement action could worsen situation. Seem to be getting around to alignment of philosophy. Expecting Premier to make announcement within days to come, hopes this will help situation.
	JF	Getting sense that people down there are getting tired. Strategic/voluntary arrest was considered but has become option due to some of the leaders looking for a way out while saving face. Concern if we take aggressive action could ramp things up and everything we've done over last 8 days would dissolve.
0955	CZ	Voluntary arrest - how do the rest of the people see it. May not understand real dynamics.
	JF	Would need strategy around this, if key agitators could remove themselves, house of cards may come down.
	CZ	If we have level of cooperation and communication this would be a good plan.

Incident Commander's Notes

K Division – Emergency Response Team

TD	Overall strategy is that everyone is going to court. Avenue to dispute through court process. Can get them there through a number of different ways. Hesitancy in group dynamic, may not necessarily want a marter. Will be held accountable through court either way, just a matter of how they will get there.
PT	Different levels of what will be charged.
JF	Defense related property will be a big one.
TD	Stronger argument with Coutts group with this one, more organized group. Every truck there is subject to CIDA. CP10 is more fluid on whose there and whose taking what role. Coutts would be one to focus on.
CZ	CP10 exist due to main blockade. If we deal with main group, CP10 will disperse?
PT	CP10 will exist either way - need alternate location. CP10 could easily create blockage at site. If we can get them shifted off highway into designated area. Lessens risk of road getting blocked.
KK	If we can move CP10, see it playing out different ways. Once community meets we'll know more. Would like to move simultaneously, drop CP10 down a KM down the road. Disperse their spot. Might come down further or move to alternative site. Will keep containment. Gives option for safe commercial travel for Del Bonita.
PT	Discussion on where to move CP10.
KK	Need to keep external protesters away from site, will be a turn around point. Accompanying strategy to moving people. Have ability to block right now. Need organizers involved via CCMG. Looking for safety of this.
CZ	Need their cooperation for this to happen.
KK	Expecting more people on weekend, working on solution but need all involvement from partners.
JF-CZ	What is sense on what is happening at Ottawa gov't level? Update on SR phone call from earlier. Important to understand that based on situation it could be a lot worse.
CZ	Commissioner doesn't have issue with approach and good with continuing looking at options. Nationally - senior exec is in line with our approach. Cold enforcement approach, have their support. No feedback that we should be doing something differnet.
KK	First tactical plan in response to investigation - trying to balance preventing things from getting out of hand but also prevent a flash point. Want to test the waters, gave instructions to AE on overt strategy. Asked plainclothes members identified with 2 members and QRT team to go and be seen snapping photos of tractors. Anticipating that people will come over, will have CCMG engage them. Dangerous driving messaging. Hesitate to authorize getting tractor VINs, don't want to be seen as trying to dismantle or disable them.
GC	Tractors easier to manage, shouldn't be too concern about these- easy to operate. May help us deal with semis, seems to be separate problem as it is easier for us to manage. Getting control of CP10 and moving from unlawful to lawful allows us to focus on site. Site is considered CIP event. CP10 is public order event. Saloon is strategy - more police presence and interaction. Employ this, more opportunity for people to identify themselves to police. Haven't had capacity up to this point. Worthwhile to go ahead with Kks plan above, instead of starting at tractors, start at Saloon to ask around. Then head to tractors, then they know we're paying attention. Member safety an issue.

Incident Commander's Notes
K Division – Emergency Response Team

	EM	s.37
	JF	Already approved to move forward with s.37 as of yesterday.
	PT	Can tolerate trucks but cannot tolerate behavior - need to spread this message whats acceptable.
1024	JF	Actions in support of blockade but extreme actions will not be tolerated. This might fire things up but APPROVED to go ahead.
	KK	Low level approach, will go forward with this right away.
	GC	s.37
	TD	Agree on making Personal a less comfortable place. If taking enforcement on CP10, should we get them to move or different strategy.
	GC	Key is with Person maintaining presence and working with him, front of CP10 controlled by people. Back of CP10 have no stake. Link from CP10, Person is important.
	JF	Overt type of presence is approved at Saloon. CP10 is goal is to find alternate site. s.37 Proceed down this road still, value here.
1039	KK	SH participation a huge help. Think meeting this afternoon may have to do with Mayor situation. TD may be able to bring down temperature of communities with senior RCMP member present at meeting.
	JF	Preparing list of answers for Q&A.
	PT	Not preparing a formal response. Don't want to address, may escalate things. Expecting things to be more general. Nik to work on specific Q&A.
		PT to send TD questions for awareness.
	JF	Good to have CO on these questions to give updates to Premiers. If they re block road, all things are off table. Will manage. 1300 full group meet and 1430 for next tactical meet.
	KK	LeighAnn can update on assets based on tactical option decisions.
	PT	Notified by Air Services, do we still need HASP?
	KK	Still would like to have this - good footage. Heavy winds today. RPAS and good to have air support.
	PT	Discussion on Gold/Silver rotation: Replacement Large value in Dep Silver. Gold will be on rotation daily.
1050		Meeting end.
	PT-JF	Discussion on schedule.
1055	EM	Working on secure location to tow vehicles to when that time comes. HASP to extend through weekend.
	PT	Need HASP Friday- Sunday. If we move to enforcement action, definitely need HASP. Will have more info once announcements come.

Incident Commander's Notes

K Division – Emergency Response Team

1105	PT-JV	Reached out to Personal Info. management re helicopter incident - confirmed no involvement
1141	KK-JF	(Phone call): Will we be arresting AP, CPS a good option to not hinder good relationship that RCMP has with him. Holding off as long as possible on arrest to avoid flash point.
1152		Briefing Ops call begin: DK (Dale Kendall), Gary Grahaam (GG), ED, PT, AH, TD, BLake Ward (BW)
	JF	All supporting police services great support. NPF - these types of events have pushed us, things we could do before agreement was signed. Situational update: Coutts main issue, pop up slow rolling protests. No intel on roadblocks. Members doing great on engagement with groups. Large group willing to mobilize within province. Maintaining objective with open road. Not where we want to be but have achieved objective. Immediate response on any enforcement action - unsafe working environment. Managing through negotiations. CP10 250-400 vehicles. Significant increase in traffic flow continuing, still working to identify key leaders. Sensitive to making arrests - may become flash point. No blockages since Saturday, feel like we're making progress. Review of 5 tactical options. Status quo, strategic arrests, with or without seizing vehicles, or mass arrest. Proactive strategies on finding lawful site for protesters. Concerned about public safety.
	DK	Demands for all restrictions to be lifted, anything we can be doing to mitigate or facilitate legal protesting.
	JF	Discussions happening with GOA. Premier announcement on potential restrictions being lifted. Number of core agitators indicated that if they received an update on restrictions being lifted they may go home, but concern with more hardliners.
	PT	Premier announced last week about removing restrictions - well received by Coutts group. Thought everyone was going to leave, AP convinced to stay.
	JF	Some groups met with MLAs on weekend. Message is that there would be no further discussion until boarder clear.
	GG	Law firms paying close attention to Ottawas proposal. Will stop brining in fuel etc. What authorities do they have? Does this mirror our strategy?
	JF	Highway was being blocked from fuel trucks last week, now coming across field with jerry cans due to flat terrain. If trucks run out of fuel, much harder to move.
	PT	Controlling checkpoints under Highway Traffic Act. Weren't giving permission but not trying to effectively stop it. Semi's trucks have to give boarder 2 hours in advance and have papers - gives some intel on their purpose. Going off advice of Crowns. Would like to work with ops officers in districts to create a response plan in event districts end up with blockades. Start to map out structure, send gold intent. Practical problems such as tow truck shortage. No capabilities to move trucks without voluntary compliance. Potential for federal gov't to create worse situation by new restrictions. Early planning between now and Wednesday for designated silver with intent and plan. All resources focused on Coutts and plans to pull more, continue to still be central resourcing. DEOC to be hub for resourcing. Article 9 invoked. Establish framework to support around plans.
1215	DK	Ops officers to meet on this so framework is consistent. AH to be apart of this. Bring in things we're already doing.

Incident Commander's Notes

	GG	EAD has EOP - generic structures from Coutts Ops plan for detachments, tightened it for Boyle.
	PT	Sort out resources proactively.
	EM	Look ahead at booked leave and have conversations about forced leave. Situational awareness on what we're potentially facing for Command staff.
	PT	2 week planning cycle.
	JF	Will share gold intent as well with DOs.
	PT	STO members - stand down for 48hrs for break. Detachments need to allow. Pass along to Commanders.
	AH	Meeting for resources requested.
	PT	Get back to EM with delegates. Want framework developed by Weds.
	GG	EAD sent rep via email to EM.
	BW	WAD sent rep via email to EM.
	AH	Doing best we can with resources.
	PT	Managing whats in front of us, can pull resources from other areas if needed.
	JF	Didn't understand how connected this group was and how quickly they can mobilize.
	AH	Due to increased demand - recognize semi optionals that are plausible to meet needs.
1228		Meeting end.
1230	*****	***TRANSITION OF GOLD COMMAND FROM A/COMMR. JOHN FERGUSON TO C/SUPT. PETER TEWFIK. ***
1300		Briefing begin: JF, PT, KK, CZ, TD, BB, SJ, MD, NS, EM
	KK	Site update: media update: monitoring with whats happening in Ottawa, dealing with questions about fuel given to protesters. Had discussions here to strategies response. Message on tow trucks - some companies reluctant to get involved. Hoping people will drive them out on their own, traffic is flowing. Fuel issues may be different here. CBSA update/Boarder Patrol: director Jason Greene attended meeting. Advised on accommodations -could make it happen in Shelby 30 mins from here. Investigation update; members have gone to Saloon, went fairly well, had team have more of a presence and let know it will result in criminal investigations if running. More to come. CSET: still looking for new site, met with community of Warner, Milk River and Coutts. Good meeting. first 2 sites were north of Milk River, not tactically a good location. Optimistic to find solution south of CP10. IBET locations: site (CP2)has Southbound 19 CVE, 1 PV; northbound 19 CVE. Smugglers has 7 CVE, 40 PV. CP5 has 26 PV, 4 RVs. CP10 has 24 RVs, 17 CVE, 8 farm vehicles, 104 PV. Similar numbers to earlier. Seeing change in items being brought in to make more comfortable, working to change this. Intel- still monitoring social media. Numbers staying the same. Expecting higher numbers over week. 800-1000 people here on Saturday night, expecting same. Preparing target sheets and

		differentiating between persons of interest and persons chargeable. Have inventory every morning of skills on site of different members on daily basis.
	TD	Have SAD chiefs meeting ongoing; briefing them as we go. Things from KB - Willing to provide resources, Blood Tribe issues in Carway can be first response. Chief of Medicine Hat willing to provide resources. Tied them into Silver. Possibility of sympathetic actions - will let them know should we start taking any overt actions. SAD Chiefs seeing issues in their areas but all peaceful.
	Solicitor-Client Priv.	
	TD	Have this starting to move in event that it's needed. Conversations are taking place, if muni declares it it still has to be approved by Minister.
	KK	Spoke to 3 communities in area about SOLE - don't want to pursue this at this time.
	Solicitor-Client Priv.	
1316	CZ	Possibility of suspending licenses and insurances with commercial vehicles; operate as leverage or bargaining tool in discussions?
	PT	Have not gone this route yet.
	Solicitor-Client Priv.	
	KK	Some earlier conversations with potential outcomes, USBP restricting access to States. May want to have discussions with US partners to share info of licenses and persons names. Will follow up on this.
	TD	Ontario looking at this as well. Unsure how restrictive insurance is with who or who will not insure.
	Solicitor-Client Priv.	
	PT	Update on call with DOs in event we have another issue in one of our districts. Districts have identified delegates to work with EM to be done by Wednesday.
1324	KK	CBSA update: towards Carway- convoy 10 light trucks and 12 agricultural vehicles lining sides of highway.
	PT-SH	SHs to look into this
	BB	Kenney announcement about ending restrictions - any impact?
	KK	Will task CCMG to get a feel at site.
	PT	They have stated they will take the lifting of restrictions as a win, but unsure if mood has changed.

Incident Commander's Notes

K Division – Emergency Response Team

Protected B
once completed

	EA	DCAS update: swap of analyst on site; Chris supporting site for 3 days. Will use next couple days to reconfigure analytical support. Update to come once per day instead of twice. Anticipating increase in activity across the board, will have resources to support at that point.
	TD	How tied to other agencies?
	EA	Looking at PSIO for intel center. Leveraged contacts within province.
	KK	AE resulted in major case management assistance on investigation side, still need case management of evidence side. Looking for update. EM to provide.
1332		Meeting end; tact meeting at 1400hrs, next full brief at 1700hrs.
	PT-SH	Request to get SH vehicles out to Carway to block Carway from vehicles going through. Smaller vehicles we have no authority to stop, biggest concern is we don't want commercial vehicles going through. Can move the small ones but don't want commercial.
	SH-PT	Have more resources than needed at CP10. Provided we're still over resourced here, we can move to Carway to set up checkpoint to divert commercial traffic.
	PT	Reestablish CPs and check whats happening in Carway vehicle report. Del Bonita not as much of a concern. Prioritize Carway if we are short resources. May be prelude to another blockage.
1400		Tactical update: KK, TD CZ, PT, EM, IS
		Update provided to TD on Carway.
	KK	2 SHs headed this way now.
	TD	Same group as was there last week when it was blocked. Group was respectful. Blood Tribe going to support as well.
	PT	CVEs/farm vehicles checkpoints coming through before they end up at boarder if they don't have legitimate business. Assign CVE Enforcement- power over CVEs.
	TD	Leave this with SAD Silver command. Good to reestablish CPs with CVE Enforcement.
	KK	Site update: AE brief - plain clothes members attended Smugglers, strategized CCMG to make contact. Received well. Members attended and explained reason of tractors. Asked to speak to the person in charge. CW told everyone they don't need to speak to police- big show, but this is good. Clear decension in rank within group, maybe even conflict but no conflict with police. Pressure within group but not with police. Gives indication of mood. Members passed out business cards but people said they would not talk. Made obvious we were conducting investigation near tractors by taking photos, etc. Seem to be getting more comfortable with police presence. Tasked to AE to see if we need any other type of discussions on unlawfulness from investigation perspective on site.
	TD	CIDA relies on vehicle being in place for prolonged time. These vehicles have been there for a long time and the longer it goes on our case gets stronger. Where grounds exist, this is what we're doing. Vehicles stuck at CP10, provides stronger message.
	KK	Have not done any arrests at CP10, posed question to AE to get investigative team thinking to make sure it's covered off.

Incident Commander's Notes

K Division – Emergency Response Team

Protected B
once completed

TD	Have to be satisfied that even though there is no blockade they are still slowing down vehicles. CP10 vehicles subject to the same because it's still close to boarder.
PT	Only serious charges for about 20 people. Challenges at briefing establishing identities at main site. CP10 is way more dynamic. Public confidence standpoint - focus is CP10. Want to hold these people accountable for all CIDA and mischief, etc. at main site, unless someone egregious. Just need LPs, charge ROs and ticket, have to be thoughtful about where these 20 people should be. Think it should be main site.
KK	Proximity to boarder - need to lock this down. AE will follow up to see if CCMG can communicate from continuing offense perspective.
TD	34 vehicles subject to CIDA, criminal code, etc., how we decide to go about it is the question. CW needs to be advising them of jeopardy. Instigative focus has to be here. Once satisfied at main site, move to CP10.
KK	Want AE to engage with CCMG to continually remind people at site that they are committing a crime so theres no misunderstanding. No immunity given by not arresting (to get rid of any arugments).
EM	Dedicated specific person needs to document that they are giving these reminders.
KK	CSET found a couple spots to north, not best location. Want to be south of CP10, opens up 501 and easier to move them. 4 miles north of weigh scales on east of road in Hudderite communities. Will bring back if it looks good-checking out now. Good sense from group that they will move because it is closer. Put in a new roadblock that funnels people down into this area, with assistance of key leaders. Everyone will want public safety. Allows us to limit resources for containment. Many strategic advantages. Colony called "Miami Huderite Colony". Once drop barricade, think they will want to move and they will be closer to boarder. Might take .5- full day to make this happen.
TD	Closed roads due to dust storms on Highway 3, RR 185-190.
KK	Blood Tribe and resources - should we make ask from municipal agencies to give relief? Become part of a more collective response. May be advantage to inviting other partners. CZ to discuss on meeting with AACP this afternoon.
JF	Good to get other agencies involved if they are willing.
TD	Federal force is to our advantage.
PT	Be mindful these protests are happening everywhere, recognize we can pull resources from munis but they're first priority is still to response to their respective units. May get pulled back and may have reliability issue. Update on new protest site: Colony south of 501 and north of Coutts.
KK	Would like to draw GC into discussion if going this way. KK to send PT location.
KC	Blood Tribe heading down to Del Bonita, SHs headed down to CP10.
KK	SHs on their way. Meeting at Personal - people wanted permission to have support vehicles (PVs) come in - denied by KK. Might end up with blockade due to this.
TD	Tractor and truck stolen from Bashaw, worried about stolen vehicles. Ownership doesn't apply as much then. If we start seeing things like that happening; heads up for that.
KK	Have video of someone being tied to tractor, drove it around and came back to same spot.

Incident Commander's Notes
K Division – Emergency Response Team

Protected B

	EM	Worth engaging civil lit? Any liability on land by arranging it?
	KK-EM	Please task out; want civil/liability insurance. Not expensive but would be good to cover this off
	PT	Might be worth to accept this liability due to high risk where it is right now.
	KK	May not eliminate the risk of blockades and people on the highway but will mitigate it. Sunny Site Huderite Colony - updated name of potential protest site.
1444		Next briefing at 1700hrs, 1830hrs to follow. Meeting end.
1446	PT-ED	Tasked to get CPs reestablished at Del Bonita and Carway and have CVE Enforcement at these points.
	JF	Would have to control traffic in one lane.
1500	KK-JF	(Phone call): Boarder Patrol indicated report of northbound lanes in Carway blocked.
		Both boarders only open until 2200hrs, then moving patrol until then. Mass arrest resources in place; proposing staggered approach.
	SH	2 vans with 8 person capacity in Lethbridge within an hour. Vehicles in Medicine Hat and Calgary. If need this, 60 person capacity will show up on the hour, staggered approach. Can bring up further backup if needed. EM to connect with KK on this.
	TD-JF	(Phone call): 4 mins ago. Message at Carway- northbound lane open, southbound lane closed with tractors on lane. Members on scene feel it will open up in next few minutes on Highway 2. Authority to do vehicle check on Highway 62 and Highway 501 to check all commercial and farm vehicles. Second one at TSRD 23. Acting under existing lawful authorities for commercial and farm vehicle stops.
1512	PT-SH	Based on totality of what we have in province, if they have no business lawfully going to port or field, lawful authority is based on stated intentions of blockade. Holding people at CP10, but we can't stop personal vehicles because theres no way to prove their intention. Threat assessment based on exisiting blockade and nature of protest.
1658	PT-ED	Asked Naomi what we use for 48hr clear admin leave stand down when returning home. Will get message out for consistency of all member stand down.
1700		Full breifing begin **NOTES TAKEN BY CLAIRE SPINK***
	PT	JF confirmed update from CBSA that Carway convey has left.
	NS	Media lines going to Gold for review. Will include TD JF and PT.
1724		Meeting end.
1725		Tactical discussion begin KK, PT, EM, JF, TD, IS
	PT	Helpful to issue TSA tickets on main site to people to for interactions. Reinforces message and low drama. CIDA people - could serve summons. Starts process and sends message.
	JF	Dealing with different crowd than CPS who was handing out tickets. CIDA and criminal code charges, might create environment of "what do we have to lose".

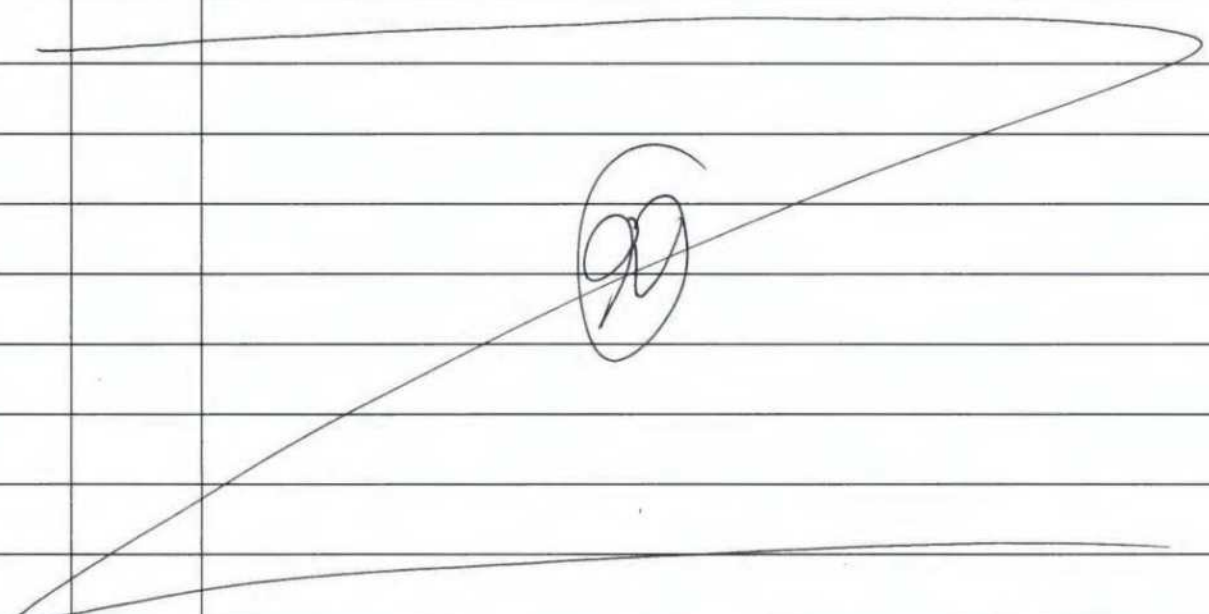

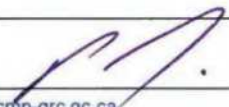

Incident Commander's Notes
K Division – Emergency Response Team

	IS	6 point stunting ticket; does damage to insurance
	TD	RO tickets to go in mail but members on site have announced it. Traffic to assist with what we can charge with when parked on side of highway.
	KK	Separate site from CP10. Like strategy for CP10, move site and set up new blockade and ask Marco to move them down there. Once moved, we can ticket anyone who is left because we have given them alternative site to protest. On site, dont think tickets will be effective, they're aware of this already.
	PT	Drives home message in tangible way that this is unlawful. Gives TD something to talk about at town hall.
	KK	Don't get feeling that tickets will cause them to block the road. Will start with CP10 but might be controversy if we aren't ticketing site people.
	JF	If we give them ticket, might not be able to follow up on criminal charges. Would like to proceed with criminal charges with core group.
	KK	Could do up summons with investigative team tomorrow with no issues. Still have protest on and GOA not saying anything. May have hope right now they're not facing criminal charges, but if give summons it bring them to block the road.
	JF	Pop up protests along week and have resolved them quickly without tickets.
1735	KK	Traffic still flowing, time on our side. Will deal with site once CP10 is dealt with. Measured strategies and arrest key players may be an option. Will have more intel in time.
	TD	Everyone who comes up to CP10 gets a ticket?
	KK	Strategy if we don't get alternate site. Might block the road but not sure how feasible it is if people fight it in court. Work towards getting new site set up to midgate risk.
	TD	Get message out now and work with courts to explain. They may drop a lot of charges but would discourage people come coming.
	KK	If it looks like alternate site by Weds/Thurs, look to moving and ticket those who want to stay behind and anyone new who comes. Multiple strategies: incentives to protest lawfully. If that doesn't work, Fri/Sat night we warn people they will get ticket - too unsafe. Get media involved this way. Look to solving site after, may change direction if they block site again. No threats in a while. Will know around Tuesday 0900hrs about alternate site.
	PT	Problem right now is that we're not doing any action.
	KK	Investigative techniques - hold in back pocket for tickets for site.
1752	JF	On board for strategy at CP10.
	KK	Still letting traffic go through on site, remain as in until they force our hand. Look into how Kenney's announcement will affect options for us.
1744		Meeting end.
1803	PT	Follow on conversation with KK, JF and TD (Phone call): circled back to ticketing people on site, accepted that it doesn't make sense to pursue CIDA, as we are not ready investigatively. Talked about TSA tickets, raised fact that discussion had Ottawa and Calgary issued tickets in relation, which didn't seem to present as a potential flash point issue. In order to organizationally take action, this is something we should be considering. KK to talk to investigators and CCMG and we will discuss results in morning.

Page Number 21 of 26

Caption: **Alberta COVID-19 Protests**
(e.g. Event name and file number)

Time	Action	Details
1910	JF	CP-14 blam past?
	KK	CP-14 was up. They parked there. We made call to open it up and keep pcs there.
	KK	PAT ticket not an option
	JF	Sheriffs have ticket books
	PR	half will have PAT, a CVE will be able to write manually
	KK	we'll look for ticket books
	KK	ccmg said Saloon people stayed in place
	KK	ccmg Personal Info. taking ideological approach. he has tractors. In for long haul.
1913	KK	they are not interested in new site (per ccmg)
	KK	tax trucks will help with enforcement
	PT	could we divert new traffic to alternate site?
	KK	we could try but it's an empty field and not visible
1916	KK	might have worked if Personal Info. would have gone
	KK	people not interested in going there
	KK	GC would like them moved to south
	KK	KK but then we allow occupation.
	KK	I see us resolving CP-10
	KK	It can go up to 1000 people
	TD	They keep bringing in tractors
	KK	I'm more comfortable about enforcement
1920	KK	Is it long-term management or enforcement?
	KK	GC would love to seize tractors.
	KK	Will have to discuss with Gold

Incident Commander's Notes

Date: 2022/02/09
Page Number 22 of 26

Caption: **Alberta COVID-19 Protests**
(e.g. Event name and file number)

Time	Action	Details
1921	LMA	spoke with former member she knew
	LMA	people are not leaving. Lots of MH issues in that group
	LMA	They feel that they are safe, so not worried about kids
	LMA	They've lost jobs and livelihood.
	TD	Some ex-military there feel they have nothing else to lose
1924	TD	spoke with CEO of CASS. Really appreciative but also appreciative of (?)
	TD	They're being significantly impacted.
	LMA	The highway is way for protestors to be heard. They think Canada is behind them
	JF	Is there a way where they may be open to opening a lane to the border?
	JF	There may be future counter protests.
	KK	It is an approach we could take. If we switch to management, it's a decision for Gold.
1926	TD	we need to go back to our objectives
	TD	Safety and opening lanes
	TD	We're moving in direction of managing. That's why I called CASS
	KK	We could do enforcement at CP-10 and work on long term management of site. Still collect evidence.
	KK	It would still be illegal
	PT	We need to consider arresting Personal Info He's emboldened.
		They've never agreed to do anything for us.

PROTECTED "B" – DO NOT DISSEMINATE WITHOUT APPROVAL OF INCIDENT COMMANDER

Division Emergency Operations Centre (DEOC)
Incident Commander's Notes

Date: 2022/02/09
Page Number 23 of 26

Caption: **Alberta COVID-19 Protests**

(e.g. Event name and file number)

Time	Action	Details
1932	KK	I propose enforcement for CP-10
	LMA	we could let them know we're going to take vehicles every day.
	KK	maybe we get Personal Info. and ask him to open lanes to border. If not arrest and go to next leader.
1934	LMA	These people want to be heard. Could we get them together at a stakeholder roundtable? They like white shirts.
1937	GC	One option to arrest and seize all tractors
	KK	Personal Info. is not engaging with ccm g
	PT	He's the guy to take into custody.
	LMA	We have to keep lane open permanently.
1939	GC	maybe we get for protesters on northbound. and do 2-way on southbound.
	KK	If we set up a small site it will swell on weekends
	PT	Resolving CP-10 to make it safe is a good objective.
	PT	Hoping to have tow assets tmo.
	Em	Will know tomorrow
	EM	We need to solidify our planning
	Em	We need window of opportunity that we put them to work as soon as they arrive.
	PT	look at strategic arrests to get the lane open
	KK	we need to define "resolve" CP-10
1944	PT	if moving them to eastbound resolves public safety I think that's good. As long as safety resolved
	TD	Gold says make it safe. How we do it, will be determined.

(e.g. Event name and file number)

Time	Action	Details
	TD	take tractors to meet goal of opening lane.
	JF	Great discussion.
	JF	Two different sites. We should deal with one first.
	JF	Getting rid of CP-10 makes sense to me.
1947	KK	I think we could do some things simultaneously.
	KK	If we have tow trucks, we can deliver.
	KK	Gold needs to be part of how.
	GC	Site is main problem.
1949	KK	Site won't rescue CP-10. CP-10 will ^{rescue} rescue site.
	TD	I think we still focus on site.
	GC	We need to ratchet up pressure on Personal . We need to get lanes open. But release of him is a problem.
1952	JF	I am leaning to site. We cannot control what happens with courts.
	JF	I don't see downside to arresting him, Personal Info and a couple of others too. Tractors too.
1953	PT	I like strategic arrests. s.37 did well in court today.
	Em	Does Personal have 6-7 assets? That would send a message.
	KK	started enforcement on CP-10 up it a bit.
	KK	LMA continues messaging & tow some.
	KK	Arrest Personal Info. and take some tractors.
	CZ	Is it possible to remove units blocking lane?
	GC	That's the plan. Bring 12-15 to CBSA.

Page Number 25 of 26

Caption: **Alberta COVID-19 Protests**
(e.g. Event name and file number)

Time	Action	Details
	GC	that's a huge thing on our part
1957	LMA	CCMG Personal Info is suggesting alternative site at Courts
	KK	If they get to Courts, they'll get to border.
	JF	Counter with east bound lane.
	KK	CP-10 continue enforcement and messaging
		Personal deny Courts
	KK/PT	he has no credibility
	KK	CP-10 tow some vehicles
	KK	strategic arrest of Personal Info.
	KK	seize assets
2001	KK.	then see who new leaders are
	PT	we have Edm Transit tow, will it tow a regular car?
	JF	does CPS have one?
	TD	Yes and a driver.
	Em	we don't know what tow trucks we can get. If it works out, it won't be 3 before Friday.
	PT	I don't know how quickly we can get wrecker down.
		Fast. Will you use it?
	GC	not until we need it.
	TD	will call
	JF	is this good for you for tomorrow
2008	GC	very least work on CP-10, get Personal Info. and Personal Info.
	ZZ	I like the plan
	KK	3 small trucks would be good. Don't need big ones.
	Em	If they come, they may not be there until Friday.

Caption: **Alberta COVID-19 Protests**

(e.g. Event name and file number)

Time	Action	Details
0916	JF	Thank-you
	IS	CPS has two trucks. Will leave Calg. by 10 today and depot in Raymond
	NS	working on key messaging and Q & As
	NS	Keeping national comms in loop

Solicitor-Client Priv.

	TD	CASS - spoke with Person Spoke with rancher getting cattle through - he's looking at civil action.
	TD	He has 11 trucks going through today and 60 next week.
	TD	Very supportive of police. Not happy with what's going on.
0925	SRU	similar livestock issue at Emerson. Were allowed through. Looks like livestock gets through - speaks to coordination nationally
	SRU	Via rail reporting that lines may be down.

Time	Action	Details
1012	GC	conduct a contain assess at Saloon
	GC	tactically we have to get into that planning cycle
		planning for P.O weekend
	GC	have proper authorization to deal w those at site.
	GC	we have to resign ourselves to need Investigative
		capability at site
	GC	decision point that were not at
	GC	we need to study group
	GC	can we take a couple guys off and see what happens?
	GC	that's investigative decision
1015	PT	we have to have authorities
	PT	concerned with intention and statements and longer
		we wait, the more people, the more fortified. they are
	GC	I agree. Longer it sits, more dug in.
	DH	Asen's team needs to build.
	DH	if we make arrests today or tomorrow, we still
		need INSET
	PT	have to be confident in authorities
	JF	we have to be comfortable that we've identified all
		leaders and cache of weapons
	JF	concern is for risk to members down there
	JF	may not have perfect investigation wrapped up before
		we move for safety
	JF	I worry about risk to members

(e.g. Event name and file number)

Time	Action	Details
1441	JF	strategically better next week
1442	JF	we've been asked to identify Phase 2 lead.
	JF	we need someone to develop the plan
	JS	I can push it out
	JF	Insp at higher level
1444	all	discussion about who
	JS	I spoke with Kevin and sent a message
	JS	ops?
1446	JF	GC is working on
	Em	can we collapse traffic to backfill for a week?
	JS	abt of it is MP3A at detachments
	Em	a Corp Communique?
	JF	I will email DCS directly
	JS	Red Deer is a problem
	JF	outlined new Bronzes
		all discuss tow trucks
	JS	it will have to be triaged
	JS	we can plan for disassembly
	JS/Em	we can get information to municipalities
	PR	what is plan for arrests?
	JF	still looking at that
	PR	we have capacity
	JF	well need to let LRPS know too
1455	JF	primary goal will be to remove key people and items of concern.
	mDE	calls JF
1458		re-capped suggestion from tow company leasing vehicle to us

Time	Action	Details
	MDE	sounds incredibly reasonable. 100%
	JF	would GAA consider?
	MDE	I am certain we can work it out. 100%
1459	Em	would take a week
	MDE	let me know what you need.
1500	JF-Em	come up with more info
1500	JF	calls Dale
1503	JF	over problems is about STO not being released
	JF	make sure STO released
1505		call ends
1518	JF	updates CZ by phone.
	CZ	discuss contingent on weekend events for timing
1519	JF	abt of them have to work (protesters) on Monday
	JF	spoke about number of vehicles that came in from call out
1519	JF	things calmer after yesterday
	CZ	ticket enforcement continue?
	JF	Yes
	JF	plan to stop large trucks
	CZ	Det Banta & Carway?
	JF	so far no threats. We have plans in place.
	CZ	commercial traffic backed up?
	JF	I will check.
1524	JF	we'll ask for border to close.
1525		call ends
	PT/JF	discuss event coordination management.
1530	JF	responds (email) to ATIP request

(e.g. Event name and file number)

Time	Action	Details
1542	PT-JF chat	
	JF	I will find Bronze for Phase 2
		discuss options
	JF calls Dale	
		inquiries about availability of Dwayne Brown
	JF → KK call	
		Pln 2 team could be 3 and maybe 12 people
1553		discuss names
1555	PT	I will get Bronze Planner for Phase 2
	JF	I gave Curtis update
1609	JF	speaks to PR then JF will call Farooq
	JF calls SRU	
1624	JF	developing resource plan from other police services / Divisions
	JF	usually people leave after Sunday, so less numbers
	JF	if we remove group, it may take time to get next leaders in place
1626	SRU	reach into E & TAC
	JF	yes. Probably.
	JF	Still getting border traffic and coming up behind us
	JF	is it possible to get border shut down?
	JF	not present as RCMP but rather CPB & CBSA decision
	SRU	we can talk to Homeland Security
	SRU	send us an email with information
1629	JF	Jason has been told to mirror whatever Canada does
	JF	I will ask questions about traffic coming through
	JF	Locally, they cannot close border
	SRU	there's an email from Trish Ferguson I sent you
	SRU	just mention Ph. Lue's name.
